

# Dagger

## The Hope Blister

The sunshine girl is sleeping  
She falls and dreams alone  
And me I am her dagger  
To numb to feel her pain  
The world is full of noise yeah  
I hear it all the time  
And me I am your dagger  
You know I am your world (you know I am your wound)  
I thought I heard you whisper  
It happens all the time  
I thought I heard you whisper  
It happens all the time  
She whispers while I'm sleeping  
I love you when you smile  
I didn't really lose you  
I just lost it for a while  
The world is full of noise yeah  
I hear it all the time  
You know I am your dagger  
You know I am your wound  
I thought I heard you whisper  
It happens all the time  
I thought I heard you whisper  
It happens all the time  
It happens all the time
