

Take This Heart

David Cassidy

No one's gonna take this heart away from me
No one's gonna go and cause more misery
No one's gonna take this heart
No one's gonna break this heartNo one's gonna take this heart away from me
No one's gonna go and cause more misery
No one's gonna take this heart
No one's gonna break this heart
No one's gonna take this heart
Fell out of a dream
Bendin' out in the streets
Lost love just pulled the rug out under me
My resistance was low
With only bruises to show
Just a fool that turned another cheek againNo one's gonna take this heart
No one's gonna break this heart
No one's gonna take this heart
No one's gonna break this heart
No one's gonna take this heart
No one's gonna take this heart
No one's gonna take this heart
No one's gonna take this heart away from me
No one's gonna take this heart away from me
No one's gonna take this heart
No one's gonna take this heart
No one's gonna take this heartNo one's gonna take this heart away from me
