

# Heartbeat

## The Runaways

Thousands cheered as you appeared  
The band was playing  
We drove away that Saturday  
I wanted you knew where you were staying  
Backstage lied about my age  
Didn't care that you were older  
Stop look listen to my heartbeat  
Stop look listen to my heartbeat  
Here you are a superstar  
But I sing and play in my own way  
You got your fans and I got mine  
But I need your love that's the bottom line  
I sing lead and so do you

Get together what will we do?  
Stop look listen to my heartbeat  
Stop look listen to my heartbeat  
Danced all night till the room was light  
You said goodbye I wondered why  
Radio played you couldn't stay  
You'd miss your plane in the morning rain  
Here I am in the limousine  
Once again the lonely queen  
Stop look listen to my heartbeat  
Stop look listen to my heartbeat
