

Invincible

Skillet

I, I'm invincible
I'm indestructible
It's my destiny
I, I'm invincible
I'm unshakable
Through the truth in my soul You know you just can't
Kill a man when he's dead
You know the spirit survives
You can't stop the advance
Of the kingdom to come
You know the truth is alive To be invincible
Is unattainable
Without sacrifice
Feel, feel the birth inside
The life that cannot die
Are you invincible? You know you just can't
Kill a man when he's dead
You know the spirit survives
You can't stop the advance
Of the kingdom to come
You know the truth is alive Invincible, invincible
You know you can't
Kill a man when he's dead You know you can't
You know you can't
You know you can't
You know you can't You know you just can't
Kill a man when he's dead
You know the spirit survives
You can't stop the advance
Of the kingdom to come
You know the truth is alive You know you just can't
Kill a man when he's dead
You know the spirit survives
You can't stop the advance
Of the kingdom to come
You know the truth is alive You know you can't
Kill a man when he's dead
