

# Same Blood (MTVu Live Leak)

## The Academy Is...

Like a cold day in August  
I was not prepared for this  
You think that nobody noticed  
The way that you still care about it  
With all the people we need to love and hate,  
Everybody makes the same mistakes  
Divided by these walls,  
Together we are lost  
We are the same blood  
All of us. we are. we are  
While half of us are lost  
The other half forgot  
We are the same blood  
We are the same blood  
We are the same  
You remind me of August  
The way that I still care about  
All the things that you promised  
When I was still around  
Pick you up and drive you down  
We are the same blood  
All of us. we are. we are  
While half of us are lost  
The other half forgot  
We are the same blood  
We are the same blood  
We are the same blood  
We are the same  
Oh, oh, oh, oh  
We are the same blood  
All of us. we are. we are.  
We are the same blood  
All of us. we are. we are.  
We are the same blood  
While half of us are lost  
(Yeah yeah yeah, yeah yeah yeah)  
The other half forgot  
We are the same blood [Repeat: x4]Hey hey hey
