

Gravity

Audiovent

I hit the ground
While reaching out watch you rise away
I hear your voice
I see your face when I look at me We talk in rhyme but lack the will
Comfort in silence kills I'm not the enemy, so don't you let me die
I'm caught in the gravity, don't let me die We make the sound
We use the words ever perfectly
And yet somehow
We never seem to know what to say We talk in rhyme but lack the will
Comfort in silence kills I'm not the enemy, so don't you let me die
I'm caught in the gravity and you're the sky I'm not the enemy, so don't you let me die
I'm caught in the gravity, don't let me die I'm not the enemy, so don't you let me die
I'll break the gravity
So don't you let me die
