Maybe

Desi Oakley

So this is it
This is my reality
And you're okay with all of it

Maybe I should have never known you
Maybe I should have never felt how good it was to hold you
And maybe what you don't know can't hurt you
Maybe this time time
Ignorance is bliss

And we were good
We were all I ever dreamed
You thought you could
But did you think of me?

Maybe I should have never known you
Maybe I should have never felt how good it was to hold you
And maybe what you don't know can't hurt
Maybe this time time
Ignorance is bliss

Maybe, maybe

So this is it
This is all you had in mind for us
It's fine, it's really fine

Maybe I should have never known you
Maybe I should have never felt how good it was to hold you
And maybe what you don't know can't hurt
Maybe this time time
Ignorance is bliss

Maybe, maybe
