

# Maybe

[Desi Oakley](#)

So this is it  
This is my reality  
And you're okay with all of it

Maybe I should have never known you  
Maybe I should have never felt how good it was to hold you  
And maybe what you don't know can't hurt you  
Maybe this time time  
Ignorance is bliss

And we were good  
We were all I ever dreamed  
You thought you could  
But did you think of me?

Maybe I should have never known you  
Maybe I should have never felt how good it was to hold you  
And maybe what you don't know can't hurt  
Maybe this time time  
Ignorance is bliss

Maybe, maybe

So this is it  
This is all you had in mind for us  
It's fine, it's really fine

Maybe I should have never known you  
Maybe I should have never felt how good it was to hold you  
And maybe what you don't know can't hurt  
Maybe this time time  
Ignorance is bliss

Maybe, maybe
