All of a Sudden

Stateless

You don't understand it
All of a sudden something's wrong
You take it for granted
All of a sudden time is goneYou put a little distance in between it
Hope it makes sense later onYou don't know what happened
Dreams never turn out like you planned
The next moment you wake up
Stranded in a one night standYou put a little distance in between it
Until you seen it hope that later onI know it's hard to wait that long
But right now baby
We both agree, something's wrong
Something's wrongAll of a sudden
May be weak and try again
But baby, baby, baby I don't know when
Until thenYou put a little distance in between it
Until we seen it
Maybe later onI know it's hard it seems so long
We both agree, oh baby
I know, I know.
