Best Thing You Ever Had

Poison

Yeah, bluesI won't ask where you're going
If you don't ask where I've been
'Cause if you're looking for an answer, babe
I wouldn't know where to beginI don't know what I want sometimes
But I sure know what I likes
You've got that thing about you
Gets me hot insideThe words made no sense when I wrote this song
'Cause half way through it you were turning me onLay me down
I just might be your kind
I'll show you a better way
We can do away the timeIf you stop looking so hard
I think you just might find
I ain't finding it so bad
Might be the best thing you ever hadYou know a little 'bout love and
I know a lot about hate
I believe you gotta make things happen
You believe in fateBut this won't be the first time that
We didn't see eye to eye
You may not be religious but I'll make you see God
If you give me a tryI know love can get me through it
If you give me that look we'll get down to itDon't shoot me down
I'm not a social disease
You've got that thing about you
Bring a grown man to his kneesI'll teach you, baby
'Bout them birds and them bees
When you get around
And think about it ain't so bad
Might be the best thing you ever had
Oo, best thing I ever had[Incomprehensible] give me some of thatWhen I put out the dog
You get them old ghosts out of bed
I ain't looking for an angel to save me
Just some place to lay my head, dig?I'm the one to right your wrong
If you give me a chance and I'll turn you onLay me down
I just might be your kind
I'll show you a better way
We can do away the timeIf you stop looking so hard
I think you just might find
I ain't finding it so bad
Might be the best thing you ever hadDon't shoot me down

I'm not a social disease
You've got that thing about you
Bring a grown man to his kneesI'll teach you, baby
'Bout them birds and them bees
When you get around
And think about it ain't so bad
Might be the best thing you ever had
Best thing I ever had
