# Blk Stallion

## Crosses

Live reckless is fun, new spirit, check it
My suggestion if you'd like to hearHit records for the cool kids
No exception - take it or leave itI never thought that this could happen to me
You never thought that this would happen, did you?One second it's the same track
I recognize that pretty chop or bridgeBlack stallion is the lifestyle
No exception, baby, all of itI never thought that this could happen to me
You never thought that this would happen, did you?I like how you move to the music, it's easy to like
Cause baby you're born to be famous, with your name in lightsI never thought that this could happen to me
You never thought that this would happen, did you?
