

Blk Stallion

Crosses

Live reckless is fun, new spirit, check it
My suggestion if you'd like to hear Hit records for the cool kids
No exception - take it or leave it I never thought that this could happen to me
You never thought that this would happen, did you? One second it's the same track
I recognize that pretty chop or bridge Black stallion is the lifestyle
No exception, baby, all of it I never thought that this could happen to me
You never thought that this would happen, did you? I like how you move to the music, it's easy to like
Cause baby you're born to be famous, with your name in lights I never thought that this could happen to me
You never thought that this would happen, did you?
