

# Nervous System

**METZ**

Like a bug lying on its back  
Turning the screw  
See your life through a dirty glass  
What did you do with it? Nervous system  
On my mind  
Nervous system  
All the time Point the finger  
Do what I say  
Lies fall on deaf ears  
You're never gonna make me feel the same  
So what's the use? Nervous system  
On my mind  
Nervous system  
All the time See your life through a dirty glass  
It's nothing new  
Point your finger  
Do what I say  
Oh no! Nervous system  
On my mind  
Nervous system  
All the time Nervous system (Nervous system)(x3)  
Nervous system Like a bug lying on its back
