Lonely night

Eric Donaldson

Here she comes -- alone in the night
She looks in your eyees while she's breaking your heart
And her smile -- Mona Lisa style
She lends you her heart -- Lets you think you're the only one
But she'll leave you...
Lonely in the night
She breaks all her lovers' hearts
Lonely in the night
Dreaming of a love that fades away
When she wants -- she gets what she wants
She looks in your eyes and you give her everything
So demure -- so insecure
Oh how she conceals -- all that she really feels
And she'll leave you...
Lonely in the night
As she breaks another heart (that's)
Lonely in the night
Dreaming of a love that fades
Lonely in the night
As she breaks another heartâ€¦
