

# Love Somebody

## The Subdudes

Act like a dog, smell like a cow  
Run like a chicken when you don't know how Just got to love somebody  
Love somebody, love somebody Scared of living, afraid to die  
Getting lucky when you ain't even trying Got to love somebody  
Love somebody, love somebody Too many days, too many nights  
I got nobody to hold me tight I got to love somebody  
Love somebody, love somebody There is a train up in the sky  
All men are afraid to ride Got to love somebody  
Love somebody, love somebody Heard the news late last night  
There's a fire burning up in the sky Got to love somebody  
Love somebody, love somebody, yeah I tell the stars, I talk to the moon  
Where is my baby? Please send her soon I got to love somebody Love somebody, love somebody  
Love somebody, love somebody  
Love somebody, love somebody
