The Laughing Man

The Snake the Cross the Crown

Mother Mary was a friend to me
she went down to the freak house
she never wanted to leave
so father fairy, he rises up to me
sent somebody here to get her back
so we can set her freeI used to know a place like 5th avenue in the 60s
I used to know a face, I heard they took the city
I heard they took the dark side of the moonsometimes it aint so pretty you can assume Minor Mechanics
The deep sleep panics, elevator-operator, arch-enemy
blue-collar with the drunk drunk daughter
it's alchemy.I used to know a place where we can go to make it happen
I used to know a face, woahMother Mary was a friend to me
she went down to the freak house
she never wanted to leave
so a Father Fairy, he rises up to me
Send somebody here to get her back
so we can set her free.Save somebody, somebody said
Got get up and go
you're already dead
I look around, see myself
I look around don't see nobody elseSave somebody, somebody said
Got get up and go
I tried to think, but I don't know
You got to get up and go
