Awake

Caxton

breaking into my mind.
grab a piece of mine.
everything that is said.
gettign to my...

thoughts will stray.
everyday.
and you know... you know...

turn away from the faults.
climbing up the walls.
what did you say?
getting to my...

thoughts will stray.
everyday.
and you know... you know... you know...

putting our minds to sleep it off.
like tripping through a dream.
awake from all your past mis-
take it slow just try to walk away.
perhaps you'll stay...

now i drift out of time.
i lost my place in line.
everything that was said.
where was our...

thoughts will stray.
everyday.
and you know... you know... you know...

putting our minds to sleep it off.
like tripping through a dream.
awake from all your past mis-
take it slow just try to walk away.
looks like you'll stay...
