

Be Free With Your Love

Spandau Ballet

Be free with your love
Free with your love
Be free with your love
Free with your love
Two young babes in a foreign land
Draw no milk from the dusty sand
Close heir eyes from the night so cold
Feel the love in their mothers hold
Two old men on their different shores
Stretch the world with their tug of war
Tension pulls on a tightening cord
Spread your love over Mans discord
Life's your reward
So sing it to your Lord
Be free with your love
Free with your love
Be free with your love
Free with your love
Science stands on threshold of life
Man could be cut by a blow of its knife
Time to live by a new resolution
In the spirit of loves evolution
Two young girls shining in the sun
Feel your pain but they dance for everyone
Beauty lives in their innocent glow
Things so dear should be free to let grow
So let your heart flow
And sing it to your soul
Be free with your love
Free with your love
Now baby, be free wih your love
Free with your love
Be free with your love
Free with your love
Now baby, be free wih your love
Free with your love
Be free with your love
Free with your love
Be free with your love

Free with your love
Be free with your love
Free with your love
Be free with your love
Free with your love
Be free with your love
Free with your love
Be free with your love
Free with your love
