

# Staying Power

Barbi Benton

I'm not goin' nowhere  
I'm stayin', baby I'm stayin'  
You know why?  
I've got staying power  
Baby, I've made plans  
In a fancy restaurant where we can dance  
Put on my favorite dress  
You know the one that oozes sexiness  
Tonight when we make love  
I'm goin' to work your body with my tongue  
Oh baby, my mission's clear  
There's more than love that keeps you here  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
Slow down, don't heat so fast  
Anticipation makes a good thing last  
Tease me with your emotions  
Soon we'll share nature's body lotion  
Are you ready to free?  
Girl you know you got just what I need  
Oh baby, my mission's clear  
It's more than love that keeps you here  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
No, baby I'm not going anywhere  
No, no, no I'm not going anywhere

I'll be here  
I'll be here  
For years and years  
Tonight when we make love  
I'm going to work your body with my tongue  
Oh baby my mission's clear  
There's more than love that keeps you here  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power
