

Mayday

Subseven

The secret codes that we impose on ourselves
When we know we're wrong, from wrong to right
From day to night I've seen all that I care to see and more
He's waiting, waiting for you
Mayday, Mayday
I'm calling on you I need you here tonight
Mayday, Mayday
I'm calling on you I need you here tonight
You're lost again my dearest friend
I know you find your way back
Mayday, Mayday
I'm calling on you I need you here tonight
Mayday, Mayday
I'm calling on you I need you here tonight
He's waiting, He's waiting for you
May flights of angels
Slowly guide you, slowly guide you home
May flights of angels
Slowly guide you, slowly guide you home
Mayday, Mayday
I'm calling on you I need you here tonight
