Let's Stay Together

No Mercy

You are the mountain top
I always want to climb
My blood is running high
You're stuck on my mind
You're every schoolboy's dream
But you are here with me
There is no other place where'd you rather be
You whisper words of sweet loving in my ears
You seem to know what I want to hear
Oh...let's stay together
Let's stay together
Oh...let's stay together
Now and forever
Girl, I would run all night
To be back in your arms
Cause when you hold me tight
The whole hurt is lost
It beats a novel time
I'm crazy 'bout you
I love the way you do the things that you do
You make me shiver
You take my breathe away
I'm down on bended knees
Hear what I say
Oh...let's stay together
Let's stay together
Oh...let's stay together
Now and forever
Oh...let's stay together
Now and forever
You're irresistible
I cannot get enough
I'd beg and steal for you
I'm blinded by your love
Just like a river flowing into the sea
I'm gonna run to you
You're my destiny
You make me shiver
You take my breathe away

I'm down on bending dreams?
Hear what I say
Oh...let's stay together
Let's stay together
Oh...let's stay together
Now and forever
Oh...let's stay together
