Always

Samantha Jade

[Verse 1]
I like the things you do
I like the way you move
You've got them baby blues
Just got me like, got me like
You and your magic touch
I just can't get enough
You're all I'm thinking of
Every night, every night[Pre-Chorus]
On and on and on
Can't get you out my head
You can have it all
This heart of mine[Chorus]
As long as you love me, love me
In every way
I will be calling, calling your name
So say that you love me, love me
And I'll do the same
We will be falling, falling always
Always, hey, always
Always, hey, always[Verse 2]
You like to hold my hand
You like it when I'm made
Say I'm the best you've hadThey don't know what love is[Pre-Chorus]
On and on and on
Can't get you out my head
You can have it all
This heart of mine[Chorus]
As long as you love me, love me
In every way
I will be calling, calling your name
So say that you love me, love me
And I'll do the same
We will be falling, falling always
Always, hey, always
Always, hey, always
Always, hey, always
Always, hey, always[Pre-Chorus]
On and on and on

Can't get you out my head
You can have it all
This heart of mine[Chorus]
As long as you love me, love me
In every way
I will be calling, calling your name
So say that you love me, love me
And I'll do the same
We will be falling, falling always
Always, hey, always
Always, hey, always
Always, hey, always
Always, hey, always
