

# Me and You

## Silkk the Shocker

Advisory - the following lyrics contain explicit language:

Uh, me and you together had plans on making the day, having cash  
As time passed tryin' to make it all last  
You know we struggle, hope we can see better days  
And the time different, dreamers is to go our separate ways  
See, you was always good, I was always bad  
You was always in school, I was always to cuttin' class  
Cheatin' on my tests, knowin' I wouldn't pass  
Told me slow down, nigga, I was movin' too fast  
They always told me [unverified], I wish you well one day  
If you could be spent up, shot at, get me out of jail some day  
Ya, I was told to be like you and at times I tried  
Realized the only way I can beat these streets  
The only way I knew to survive I remember comin' home high and drunk  
Smellin' just like a alcoholic, tryin' to sneak you in  
They damn near caught us  
We be down to rock the block party's all night  
Even though we clown, we be down to fight, all night  
Hangin' with the big homies, askin' what they hittin' fo'  
I remember stealin' junk food out the neighborhood liquor sto'  
Sittin' back, remeniscin' on all the things we had  
Even though it was rough, it never seemed so bad  
Our destiny, we can't shape, I know we made mistakes  
Even though I wonder why He took you  
I can't question fate, I guess it was written  
But check it out  
You still here, 'cuz you gon' live through me, C, and Silkk  
Me and you, I always thought we'd be together  
I shoulda' known, nuttin' last forever  
And see I, destiny, we can't shape it  
Even though I wonder, why we die, I can't question fate  
Me and you, I always thought we'd be together  
I shoulda' known, nuttin' last forever  
And somehow, I always thought you'd be there  
Get a deg on the mark, it's cold, but it's fair  
See, man, right now I just gotta watch my step  
No matter how many homies I lose, I can't get used to death  
I remember us five, runnin' wild  
Just tryin' to get paid, it wouldn't seem like a jail  
Put some rose on Dante's grave  
(No reason you gon' die)  
Gimme for thinkin' that, you were my brother

I'd pay millions to know I was safe, a million to bring ya back  
Y'all my family, as well as my friends  
And if I had to bring ya back, that mean I have to lose ya again  
Your memory's gonna live on, even though ya' gon'  
I'm sittin' hear contemplatin', where it all went wrong  
We had an argument, I said some things I shouldn'ta said  
Never got a chance to apologize, when you didn't come home that day  
I'm thinkin' about memories every time I lay down  
I wish I woulda known, I woulda apologized  
But I guess I gotta say it now, so I see you when I get there  
But for now I'ma pour out liquor, 'til I'm up there, wishin'  
Me and you, I always thought we'd be together  
I shoulda known, nuttin' last forever  
And see I, destiny, we can't shape it  
Even thought I wonder, why we die, I can't question fate  
Me and you, I always thought we'd be together  
I shoulda known, nuttin' last forever  
And somehow, I always thought you'd be there  
Get a deg on the mark, it's cold, but it's fair  
Me and you, I always thought we'd be together  
I shoulda known, nuttin' last forever  
And see I, destiny, we can't shape it  
Even thought I wonder, why we die, I can't question fate  
Me and you, I always thought we'd be together  
I shoulda known, nuttin' last forever  
And somehow, I always thought you'd be there  
Get a deg on the mark, it's cold, but it's fair  
Me and you, I always thought we'd be together  
I shoulda known, nuttin' last forever  
And see I, destiny, we can't shape it  
Even thought I wonder, why we die, I can't question fate  
And if this song don't hit home  
Picture the person you love the most  
And, you wake up, they be gone  
Damn, Kevin Miller, see you when I get there, fool  
'Til then you gon' live on through us  
Huh, we riders, baby, you know that  
Down to handle our business, Silkk can handle his business  
We 'bout it, 'bout it, rowdy rowdy, love, nigga
