## This Isn't Control

## **MS MR**

Simmering songs never get plain

Tinsel dreams, sweet lemonade

The gates close the pack shut down

They packed up they found another town

To replace, to eraseCurious schools mimicking fools

This isn't control

This isn't controlLeft behind the perfect crime

Like a swell hence subside, subside

What was the spell it feels like a curse

Wonder if you could lead firstCurious schools mimicking fools

This isn't control
