

# The Baylor Squirrels

## Without a Face

Took a break from Baylor University  
I was a Baylor Bear  
I hardly saw bears around there though,  
Instead I saw evil squirrels everywhere  
I don't trust the look in their eyes  
And they're not scared when people walk by  
Is it just me or could these freak squirrels  
be planning to take over the world?

White-David Koresh reminiscent  
They had stored a lot of ammunition  
Last week they took the whole faculty hostage at Acorn Point  
I called the police but then they screeched and said  
We locked up the Sheriff in his very own joint

Anarchy in the town of Waco  
Until they are the new mascot  
Since when did we negotiate with vermin?  
Ladies and gentlemen,  
The Baylor Squirrels

Sick 'em

Send in all of the fraternities  
Maybe they can help us escape  
Sorry bra, survival's invitation only  
But we were thinking we could use you as bait  
Red dots between all of our eyes  
Now I regret not choosing greek life  
And what to all of our surprise  
They attacked from either side

Jurassic Park reminiscent  
I thought squirrels were supposed to be innocent  
Our student president would only talk to them  
If there were preconditions  
But even if squirrels could speak english,  
Do you really think that they would listen?

Anarchy in the town of Waco

Until they are the new mascot  
Since when did we negotiate with vermin,  
this just in  
Ladies and gentlemen  
The Baylor Squirrels  
The Baylor Squirrels

My thoughts began to race  
I thought I'd soon be dead

Then the head squirrel finally spoke up and said

You humans make me hurl

I said shut up, you squirrel

Stop pickin' on us and vent your frustration

Out on the birds instead
