Who Knows What

Bo Bice

Who knows what is gonna happen today
Weatherman said that the sun is shining
But all I see is pouring rain
And the preacher keeps saying
That we're out of timeIf you tune in again next week
Then they'll tell you everything is fine
It's hard to know what's going on
When the right ones get it wrong
Tell me who knows what?Who knows what way is up?
How much is too much?
Hard to know sometimes just who to trust
Who knows what's going on?
How much right they say is wrong
Tell me who knows what?Who knows what a dollar means today?
You can lay it down on the roll of a dice
And you can put your money in the bank
You can't get enough [Incomprehensible] everythingYou can be sitting on the pile of cash
And then watch it going down the drain
You wake up and it's gone
Don't know what went wrong
Tell me who knows what?Now who knows what way is up?
How much is too much?
It's hard to know sometimes just who to trust
Who knows what's going on
How much right they say is wrong?
Tell me who knows what?Who knows what way is up?
And how much is too much?
It's hard to know sometimes just who to trust
Who knows what's going on
How much right they say is wrong?
Tell me who knows what?Oh, tell me who knows what?
Oh, tell me who knows what?
That's rightTell me who knows what?
Who knows what?
Now, baby, who knows what?
Baby, you know what
Baby, you know what
