

You Do the Math

[Brad Paisley](#)

With seven billion people in this world
I can't believe you're still a single girl
I bet you're thinking you're better off on your own
But the best things in life
Just can't be done alone It takes two to make love, baby
I'm sure of that
I'm one, you're one, you do the math Being single's been kinda fun
But I can see you with me riding shotgun
I'll take you baby anywhere you wanna go
And together we can have more fun
Than we can have alone It takes two to make love, baby
I'm sure of that
I'm one, you're one, you do the math I ain't never been a number's guy
But sure enough
I look into your eyes and all adds up It takes two to make love, baby
I'm sure of that
I'm one, you're one, you do the math
I'm one, you're one, you do the math
