

Put That a\$\$ to Work

LMFAO

Sexy girl, all around the world.

Just shake your hips.

And put that a\$\$ to work.

Sexy girl, all around the world.

Just shake your hips.

And put that a\$\$ to work.

Sexy girl, all around the world.

Just shake your hips.

And put that a\$\$ to work.

Sexy girl, all around the world.

Just shake your hips.

And put that a\$\$ to work.

When you here my song,

Don't just bob along.

Girl show me that thong,

and put that a\$\$ to work.

We got ciroc,

and patron on lock.

If you want another shot

then put that a\$\$ to work.

Sexy girl, I can tell your a rebel.

Low cut skirt with 5 inch stilettos.

Pink top, piercing with heavy metal.

And you're looking at me like whip cream on jello.

If you, if you, if you wanna go with me,

You gotta be a pro indeed.

Let me see you shake it till you make it in my

phonebook, till maybe I get you naked.

Sexy girl, all around the world.

Just shake your hips.

And put that a\$\$ to work.

Sexy girl, all around the world.

Just shake your hips.

And put that a\$\$ to work.

Sexy girl, all around the world.

Just shake your hips.
And put that a\$\$ to work.
Sexy girl, all around the world.
Just shake your hips.
And put that a\$\$ to work.

Don't hurt yourself.
Imma let you stretch.
Then shake that booty like
it was the next sketch.
I love your wiggle.
When your hips swivel.
Looking so good,
I got my bang on missile.

Keepseeker, come and string for you.
Meet in my room, 1422.
Let me see you shake it till you make it
in my phonebook, till maybe I get you naked.

Sexy girl, all around the world.
Just shake your hips.
And put that a\$\$ to work.
Sexy girl, all around the world.
Just shake your hips.
And put that a\$\$ to work.
Sexy girl, all around the world.
Just shake your hips.
And put that a\$\$ to work.
Sexy girl, all around the world.
Just shake your hips.
And put that a\$\$ to work.
Sexy girl, all around the world.
Just shake your hips.
And put that a\$\$ to work.

Put that a\$\$ to work.
Put, put that a\$\$ to work.
Put that a\$\$ to work.
Put, put that a\$\$ to work.
