

# As Long as There's a Shadow

**Roger Miller**

As long as there's a hill, there's a valley  
Long as there's a valley then the river can flow free  
As long as there's a sun, there's a shadow  
Long as there's a shadow, there's a place for you and me  
Secret place to run and hide  
A secret love can't be denied  
A secret place that no one knows but you and me  
And the lonely breeze that blows  
As long as there's a hill, there's a valley  
Long as there's a valley then the river can flow free  
As long as there's a sun, there's a shadow  
Long as there's a shadow, there's a place for you and me  
Secret place to run and hide  
A secret love can't be denied  
A secret place that no one knows but you and me  
And the lonely breeze that blows
