We Are the Sound

The Afters

We are the sound
We are the soundNow is the time we have
Take it, never give it back
Say what you mean to say
This could be your only chanceEverybody's watching out
For someone who can show them how
To be what you wanna be
And stand never backing downHere we are
Here we areWe are the sound
We are the siren
We're all around
And we won't stop singing it outShout it out like you believe it
We'll break it down
When we all start singing it out
Shout it out nowSilence is an enemy
That keeps us from the things we need
It ages but it never grows
So quiet that we start to bleedLet's shake it off and let it go
Forgetting what we think we know
We'll make it all a memory
We're taking back controlHere we are
Here we areWe are the sound
We are the siren
We're all around
And we won't stop singing it outShout it out like you believe it
We'll break it down
When we all start singing it out
Shout it out now, shout it out nowWe are the sound
We are the sound
We are the sound
We are the soundWe are the sound
We are the siren
We're all around
And we won't stop singing it outShout it out like you believe it
We'll break it down
When we all start singing it out
Shout it out now, shout it out nowWe are the sound
We are the sound
We are the sound

We are the sound
