

# Used to Get High

## John Butler Trio

I used to get high for a living  
Believing everything that I saw on the TV  
I used to get high for a living  
Eating all the bullshit food that they sold me I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and I'll tell you so Super size, large fries, Big Mac, Coca Cola  
Go on man, pick your poison  
Speed, weed, ecstasy, LSD  
Man, it don't bother me cos we're all on something Caffeine, cigarettes, alcohol  
You know I'm clawing at the walls trying to get my fix  
Prozac, ADD tablets, coke, smack  
Now, you know I am turning tricks 'cause I used to get high for a living  
Believing everything that I saw on my TV  
I used to get high for a living  
Eating all the bullshit food that they sold me  
Yeah, that they sold me Escape, can't wait all trying to get away  
From this place man that we're feeling  
Can't deal, can't feel what's real  
All trying to conceal all this time we're stealing No doubt, the route you're on  
Can't find the clout that you've been needing  
'Til then my friend you must contend  
With the monster that you're feeding I used to get high for a living  
Believing everything that I saw on my TV  
I used to get high for a living  
Eating all the bullshit food that they sold me I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and I'll tell you so Got links of the Cheney  
Getting crazy, getting lazy with their foreign relations  
Starting wars, closing doors  
Trying to bring about one quicker man, revelations Economic, rational, calling fouls with the workers  
Just trying to make it pay  
Cost cutting, head butting, big business  
Do what they like and you do what they say What's wrong get along, just prolong all the thoughts  
You got going on, on the inside  
Appease, stand at ease, just try to please  
All the apathy that you're trying to hide How now, brown cow  
Did we get from this standing place

And now we're kneeling  
'Til then my friend you must contend  
With the monster that you're feeding I used to get high for a living  
Believing everything that I saw on my TV  
I used to get high for a living  
Eating all the bullshit food that they sold me I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and I'll tell you so I used to get high for a living  
I used to get high  
I used to get high for  
I used to get high  
I used to get high for  
I used to get high oh oh  
I used to get high for  
I used to get high I used to get high for a living  
Believing everything that I saw on my TV  
I used to get high for a living  
Eating all the bullshit food that they sold me I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and I'll tell you so
