

# Black Gold

## Norther

if a fish swam out from the ocean  
grew lags and started walking  
if the apes climbed down from the trees  
grew tall and started talking  
and the stars fell out of the sky  
and the tears flow into the ocean  
now im looking for a reason why  
you either set my world in emotion

chorus:

cos if your not rely here  
and the stars dont even mater  
and filled 2 the top and fell  
that its all just a bunch of mater  
cos if your not rely here  
and i dont wana be either  
i wana be next to you  
black and gold black and gold black and gold
