

Otherside

Third Day

I've been sitting here for way too long
It's time that I was moving on, oh,oh, yeah
I know that there's a better way
I think i'm going to make a change, oh yeah

So come along now to where i'm going

Take me to the other side
'Cause I need something better, yeah, yeah
Take me to the other side
'Cause I wanna live forever

One thing that's for sure I know
This won't be an easy road, no, no, no
Let me ask before I leave
Won't you come along with me, yeah?

Take me to the other side
'Cause I need something better, yeah, yeah
Take me to the other side
'Cause I wanna live forever, live forever, yeah
Oh, take me to the other side, oh yeah

So come along now to where I'm going
Come along now to where I'm going

Take me to the other side
'Cause I need something better, yeah, yeah
Take me to the other side
'Cause I wanna live forever, live forever, yeah

Take me to the other side
Take me to the other side
Take me to the other side
'Cause I want to live forever, live forever, yeah

Take me to the other side
