

# All Night Long

## Pokey LaFarge

What kinda gal can you be?  
You just haunt my memory  
All night long, honey, all night long

No matter what I say or do  
I can't stop thinkin' of you  
All night long, honey, all night long

When I stay awake an cry all night  
You know they call it a sin  
But they don't seem to know  
The fix you've got me in

How can you be so mean to me?  
Yeah!  
After doin' what you did to me?  
All night long, honey, all night long

'Get outta here boy, your dog does'

When I stay awake an cry all night  
You know they call it a sin  
Yeah!  
But they don't seem to know  
The fix you've got me in  
Yeah!

Oh, how can you be so mean to me?  
After doin' what you did to me?  
All night long, oh baby, all night long
