Comedown

Jason Rubero

Come back
I wanna see you again
Come down
I wanna see you again

It's a long, long way
From your world to mine
Baby let me follow you down
My head is aching
With the weight of your song
And I really wanna hear that sound

Come back
I wanna see you again
Come down
I wanna see you again
Come back
There's so much I wanna say to you

Come back
I wanna see you again
Come down
I wanna see you again
Come back
There's so much I wanna say to you
