

Hope Is Gone (feat. Hilary Gardner)

Moby

You look like a man
I knew once or twice
So pale, so lovely
Your eyes black like ice You look like a man
I've seen here before
So tired and alone
With your wasted allure Leave me now
Just leave me now
Close the door
All my time's run out Leave me now
Leave me now
Time is gone
All my time's run out
You look like him
Same dark black eyes
Oh just last year
I watched him die You look like him
Quiet and alive
I've left behind pain
I've left behind life Leave me alone
Just leave me now
Close the door
All my time's run out Leave me now
Just leave me now
My hope is gone
All my time's run out
Leave me now
Just leave me now
Hope is gone
All my time's run out
