Digging Deep

The Melismatics

Suffocation, oxygen, DOA, born again
Anesthetics numb the pain, new beginnings start again
Pick myself up off the floor, and find the strength I had before
I am digging deepTelevision, tunnel vision, execution and exhibition
Narcissism, indecision, desperation, lack of vision
Take the pleasure with the pain, find the strength to rise again
We are digging deepAlways hanging on, in the twilight sleep, never giving up, forever digging deepPoison air, breathe it in, let it bleed, heal the skin, desecration, revelation, medication kicking in
What we're feeling will transcend the situations we are in
We are digging deepGentle leader, violent leader, expectations, limitations, killing time until I die
I saw the future in your eyes, I know why you won't sleep tonight, I've seen you in a different light
You are digging deepAlways hanging on, in the twilight sleep, never giving up, forever digging deepPoison air, breathe it in, let it bleed, heal the skin, desecration, revelation, medication kicking in
What we're feeling will transcend, situations we are in
We are digging deepAlways hanging on, in the twilight sleep, never giving up, forever digging deep
Always
Always
