

My Baby

Zendaya

We should have listened to each other's hearts
Falling in love in ever part
We can make it happen if you bout that action
Now here we go again, here we go again
You know you wanna be my baby Still we beat that's how I'm feeling,
They don't know we in our dealing
From the floor up to the ceiling
If you bout in let's start chillin'
Doing movement we can party
Who's in our business? Everybody
But it's alright 'cause I'm still living
At two chains baby I'm different, compare now Let me tell you little some' little some'
That you might wanna know about me
I don't play no game, baby listen
Baby if you love then come show me! We should have listened to each other's hearts
Falling in love in ever part
We can make it happen if you bout that action
Now here we go again, here we go again
You know you wanna be my baby Darling we should take a ride
Who's in flirting whole we drive
Nothing could come kill our vibe
Got no worries on my mind
Now we're living, living good
Can get this understood,
Got me trippin' and you drive me crazy
You know you wanna be my baby Let me tell you little some' little some'
That you might wanna know about me
I don't play no game, baby listen
Baby if you love then come show me! We should have listened to each others heart's
Falling in love in ever part
We can make it happen if you bout that action
Now here we go again, here we go again
You know you wanna be my baby If you go I'm on the grind
Think about you all the time
Now I know, think you're the one
Let's have fun, have fun, now we on We should have listened to each other's hearts
Falling in love in ever part
We can make it happen if you bout that action
Now here we go again, here we go again

You know you wanna be my baby
