

Wake Up With You

Ott

Girl you touch me
In so many ways I can't explain
And I can't imagine
Living in a world without you there
Now the day is slowly fading
Tonight I'll make it clear
I wanna wake up with you
(With you baby girl you drive me crazy)
I wanna see your face as the sun breaks through
I wanna wake up with you
(With you baby girl you drive me crazy)
I'll do whatever it takes
'Cos I wanna wake up with you
I could tell you sweet lies
It won't make a difference to your heart
If you look in my eyes
You'll see love is waiting in the dark
So don't leave me here just dreaming
Tonight let's make it real
I wanna wake up with you
(With you baby girl you drive me crazy)
I wanna see your face as the sun breaks through
I wanna wake up with you
(With you baby girl you drive me crazy)
I'll do whatever it takes
'Cos I wanna wake up with you
'Cos nobody wants to be on their own
So just hold me tight and I won't let go
'Cos I love you
