

Carry On

Motor Ace

Looking for a single thread
A melody to help me get by
While we're passing the time. Is it real?
Does it give too much away?
Is pouring out my heart til you come back
A reason to stay, do you know? Is this way home?
Is this way We just stare while the wheels fall off
But everyone seems to carry on, carry on
No time to tell ya how much we lost
'Cause everyone needs to carry on, carry on. Looking for some words to say
There's no familiar faces round here
But the feeling's the same Is it real?
Does it give to much away?
Is pouring out my heart till you come back
A reason to stay, do you know? Is this way home?
Is this way We just stare while the wheels fall off
But everyone seems to carry on, carry on
No time to tell ya how much we lost
'Cause everyone needs to carry on, carry on. Carry on, carry on.
Carry on carry on.
Carry on, (carry on.)
Everyone needs to carry on The places you know,
The friends that you owe.
Somewhere to go.
Does it pay to be alone?
Will I fall?
Is this way home?
Is this way home?
Is this way home? We just stare while the wheels fall off
But everyone seems to carry on, carry on
No time to tell ya how much we lost
'Cause everyone needs to carry on, carry on. Carry on, carry on.
Carry on carry on.
Carry on, (carry on)
Everyone needs to carry on, carry on. It's the way I feel.
Speak up when you know that it's real.
It seems like it's taking you over.
There's nothing in this world I can't show ya.
