

Sun's Gonna Shine

Steve Martin & Edie Brickell

Lonely broken feeling
Lonely to my soul
You got the look
You got the feel
You got the face of true love
You got the charm
You got appeal
I got to let you go So long sweet embraces
So long summertime
You got the power
You got the faith
You got the El Camino
You got the night
You got the day
I got the ole dark cloud
The sun is gonna shine again
The sun is gonna shine again Long time
I've been waiting a long time
Long enough
You got the song
You got the dance
You got the inspiration
You got it all palm of your hand
I got the rolling wheel The sun is gonna shine again
The sun is gonna shine again
Something tells me it'll be alright
Something tells me it's gonna be okay The sun is gonna shine again
The sun is gonna shine again
