## Drew Carey

Tonight we lie awake  
Remember how the coffee made us shake  
On those long drives?  
One more long night  
Another seven days  
Heartbeat racing the interstate, my home tonight  
For one more long night  
I'm sure as hell the happiest I've ever been  
We can't hide, we let go  
We've got more than we know  
My friends are a different breed  
My friends are  
There's a ghost in this room  
I think I'll name it after all of you  
And watch it hang over my bed like decorations  
Celebrated memories that came and went  
In light of all that time we spent  
Listening to everything our parents told us not to take in  
Now make a change, I'm counting down  
The mile marks to every town  
And falling more in love  
With the distance put between us  
We can't hide, we let go  
We've got more than we know  
My friends are a different breed  
My friends are everything

Make this last, take it slow  
We've got it all figured out for now  
So, let us live our lives without a doubt  
Tonight we lie awake  
Remember how the coffee made us shake  
On those long drives?  
One more long night  
Another seven days  
Heartbeat racing the interstate, my home tonight  
For one more long night  
From coast to coast I'll make the most  
Of every second I've been giving with this crowd

Without a doubt, you're all I dream about  
At night we lie awake  
With stories taking us back  
To the nights we felt alive  
The nights we felt alive  
I would've married you in Vegas  
Had you given me the chance to say, "I do"?  
Couldn't make it anymore obvious, could you?  
Be anymore obvious  
I would've married you in Vegas  
Had you given me the chance to say, "I do"?  
Couldn't make it anymore obvious, could you?  
Be anymore obvious, could you?
