

# Open

## Noel Gourdin

I cant take it,  
Its just eh way she holds my hand  
And looks at me  
She is my favorite,  
And for her I ain't afraid to see  
I met a whole lot of dames  
But I cant remember there names  
They came and went  
Girl it feels just like a movie  
What you do it to me

[Chorus]

First the guy with the girl,  
Then he gives her the world,  
Then they fall deep in love  
(Baby why cant that be us)  
And if you ain't noticed,  
I been noticing you, cant you read the signs  
I cant even focus,  
I been making love to you inside my mind  
Cause you got me open  
O.P.E.N [Repeats: x3]  
Shes got me  
O.P.E.N [Repeats: x3]  
Shes got me out my mind

Its outrageous  
I love the way you take your time on me  
Those sexy faces  
Ill make it rain  
Just to watch you whine slowly, yeah  
And your home girls goin' need to help you,  
Get that money off of the floor  
And I keep it comin' just to show you that I want it

[Chorus]

First the guy with the girl,  
Then he gives her the world,  
Then they fall deep in love

(Baby why cant that be us)

[Chorus]
