Today's Supernatural

Animal Collective

Come on let-let-let-let-let-let-let-let-let-let go!

Erratic sea-saw

But this exploding your brain its gonna blow me out me out again

And now i dont feel the same

Come on let-let-let-let-let-let-let-let-let-let go! Bionic hee-haww

You can dress yourself to dance

And you can wear your party chains

And i will welcome you the same

Come on let-let-let-let-let-let-let-let-let-let go!

Its not a question for your head

Come and join me near the speaker theres a ruby in your eye oh we dont have to be the same.

Cause you're always the sweetest thing inside of you

Our home is bigger than a mountain view

You find something you believe that you should do

Sometimes it wont come so easy

The shifting easel

Lets me trip and i will stay with the reds and then the pains

And now were going up the same

Come on let-let-let-let-let-let-let-let-let-let go!

Ive got a question for your head

I made a shadow with my hand

And i made it like your heart

And it will never be the same

Cause you're always the sweetest thing inside of you

My home is bigger than a mountain view

Your find something you believe that you should do

Sometimes it wont come so easy but sometimes you've gotta go get mad, madAll the good things

Like having your surf breaks

All of the

Good things

Like friends

From a long way

Theyll be some fat kings

Youll see

Comes for

Nothing

And then we watch them

Shred

Feels like
The suns going down
Can you see the clouds
Bet your in baltimore laughing so loud
But have you seen those clouds
Then you should come on out

And now i dont feel the same

Come on let-let-let-let-let-let-let-let-let-let go!

Ive got a question for the dead
I made a shadow with my hand
And i made it like your heart
And they will never be the same
Same
