

We Write the Wrong

The Early November

I tried but why can't I
You can't see what I see
From you it's you In all my life
You find the wrong
But I write it off
'Cause you write the wrong Wait and see it all waiting You can't see,
You're never gonna see
When you're not listening
To your own voice In all my life
You find the wrong
But I write it off
'Cause you write the wrong We're turning down In all my life
You find the wrong
But I write it off
'Cause you write the wrong You write the wrong (11x)
