

Violence (Hacienda Version)

Pet Shop Boys

The sons and brothers, fighting for another cause
Anything to give their lives some meaning
Busy with their guns and dreaming far away from here
Said they would act in self-defense And all the others, running 'round so hot and bothered
Anything to give their lives some meaning
In the evening running around with guns
And said they would act in self-defense with violence Violence, violence Violence breeds, violence
Violence breeds The son and brother when he gets home
He gives someone some love
And mutters, "Woman, you'll never understand
I did what I said in self-defense with violence" Violence breeds, violence
Violence breeds, violence
Violence breeds, violence
