

Mud Hill

[Samiam](#)

car windows icing over speaking steam with your breath through the floating strands of your hair am i just like
the rest you say you don? want anyone or anything say this hurts you too i wouldn? bother but this means
everything to me so spare me now rehearse the words you say repeat them again as you see my driveway while
searching for something more beyond this lonely hill i pretend to hear you act as if i understand i try to convince
you i don? hate you but it? hard to do you say you don? want anyone or anything say this hurts you too yeah
you too i wouldn? bother but this means everything to me so spare me now rehearse the words you say repeat
them again as you see my driveway while searching for something more beyond this lonely hill
