

She Left Ashes

Big Sugar

Twilight passes but we're still in dream
She left ashes like a laser beam
White hot flashes and that's what it is
Blindin' my eyes with the sight of her skin Well, I played with matches
And she left ashes
Of my fragile being Well, not that I mind
'Cause believe it was sin
Ashes, hits like Cassius
With bullwhip lashes
She left ashes All's well 'til it ends and the chill is on
All's well that depends, if the thrill is gone
If the thrill is gone Five whispered goodbyes and a kiss on the cheek
I tried to fly but my body's too weak
Because she Hits like Cassius
With bull whip lashes
Well, I played with matches
She left ashes She left ashes
She left ashes
She left ashes
