Transgression

Diverje

One nation, one nation of Gods
Divided by faith, nation divided by faith
Witness deliberate war of attrition
Witness deliberate war of attritionJudge me not, judge lest you be judged
Eyes are blind, blinded by violationI hate your contention
I hate your violation
I hate your corruption
I hate your life destructionI hate your contention
I hate your violation
I hate your corruption
I hate your life destructionI am your enemy
Witness deliberate war of attrition
Kill my mind, my mind is the weapon
Words are banned, words meant to enlightenI hate your contention
I hate your violation
I hate your corruption
I hate your life destructionI hate your contention
I hate your violation
I hate your corruption
I hate your life destructionI am your enemy
I will resist endlessly
Endlessly, endlessly, endlessly
