Make No Mistake

Young Lords

Make no mistake about it
Things ain't what they seem
I'm gonna scream and shout it
This is just a dreamA simple conversation
Every now and then
A touchy situation
Fascinates a manWhat shall I do, if I should see you
And have to pretend that we have never metIts not a cheap sensation
When you touch me with your hand
A little complication
Can hypnotize a manHow we gonna hide it
This thing with you and me yeah
Everyone can tell by now
I just can't lie you seeWhat shall I say to hide it, to hide it baby
No words can convey your lips melting into mineNo mistake, no mistake
Make no mistake, make no mistake about it
Make no mistake, c'mon make no mistake, make no mistake
about it
I'm gonna make you mine, no need to talk it over, we're
running out of timeI've made up my mind about you
I know in my heart that you have the same point of viewMake no mistake, this is it
Make no mistake, make no mistakeIt's not we don't have the time
Make no mistake
Not in the right place
make no mistake, make no mistake
Ooh come on baby, make no mistake
No mistake
I'm talking to ya baby
Make no mistake
